

Final Results for the January 2009 Western Region RFP

Under the oversight of the Independent Monitor, ESI has concluded its review and evaluation of the proposals submitted in response to the January 2009 Western Region RFP. As a result, ESI has received Entergy Operating Committee approval to move forward with one proposal and will be entering into discussions for the execution of a definitive agreement. ESI will announce the details of the selected proposal at the time the definitive agreement is reached.
