The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

APPENDIX G

PROCESS FOR PROTECTION OF PROPOSAL INFORMATION

This Appendix G describes the process ESI will follow to ensure that information provided by Bidders in this RFP is kept confidential and not improperly disclosed to or used by any employee, consultant, or other representative of ESI or any other Affiliate of ESI. Additionally, this Appendix G outlines ESI's process for evaluating proposals submitted in response to this RFP in a manner that affords objective and impartial treatment to all Bidders, including self-build projects,¹ and complies with all applicable legal and regulatory requirements, including applicable Affiliate Rules.

OVERVIEW

This Appendix G details various mechanisms ESI has developed and installed to protect the confidentiality of Bidder's information in the RFP process and to achieve the additional objectives identified in the opening paragraph above, including:

- (1) Use of an Independent Monitor (IM);
- (2) Reliance upon an RFP Administrator;
- (3) Reliance upon an RFP Administration Team;
- (4) Adherence to protocols for Receipt of Bidder Registration Information;
- (5) Adherence to procedures for Receipt of Proposal Information and Protection of Confidentiality;
- (6) Adherence to protocols for Protection of Market-Sensitive Proposal Information;
- (7) Compliance with applicable Affiliate Rules; and
- (8) Adherence of Self-Build Commercial Team to Codes of Conduct.

1. Use of Independent Monitor

ESI has retained the IM in order to (i) oversee the design and implementation of this RFP's solicitation, evaluation, selection, and contract negotiation process to ensure that the process is impartial and objective, (ii) help ensure that all proposals are treated in a consistent fashion and without undue preference given to any Bidder, including designated personnel responsible for developing the self-build option (including with respect to cost estimates, performance data, and other information related to such option), and (iii) otherwise assist ESI in its efforts to ensure that this RFP is conducted in a fair and impartial manner. The IM's role is described in the Scope of Work Activities, which is posted on the 2016 ENOI Renewables RFP Website.

¹ As specified in Section 1.7 of the Main Body, Entergy Competitive Affiliates are ineligible to participate in this RFP. Safeguards to ensure that confidential RFP information is not shared with Entergy Competitive Affiliates are discussed later in this Appendix G.

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

During each of the following phases in the RFP process, the IM will perform specific roles, as generally described below:

1.1. RFP Process Design and Implementation. The RFP process has been developed with the advice and oversight of the IM in an attempt to ensure that the RFP process is designed and implemented in a fair and impartial manner and is consistent with principles associated with a market-based procurement process.

1.2. Proposal Review. All proposals submitted by Bidders will be reviewed and screened by the IM. The IM will work with members of the RFP Administration Team to redact certain information from Bidders' proposals before being distributed to the Evaluation Teams. For each proposal, the IM and the RFP Administration Team will redact Bidder's name prior to the proposal's distribution to the Economic Evaluation Team and the pricing terms prior to the proposal's distribution to the Viability Assessment Team. The redactions are part of a process designed to protect Bidder confidentiality and to ensure that the evaluation of all proposals by the Evaluation Teams is impartial and that information that is or may be needed for review of the proposals is provided to the Evaluation Teams without the disclosure of proposal information to persons who do not need such information to perform their evaluation obligations. The IM will also oversee the segregation of information from Bidder's Proposal Package. After segregation, each Evaluation Team will receive and have access to only the information it needs to perform its portion of the proposal evaluation. The information segregation process is designed to protect Bidder confidentiality and ensure impartial evaluation of all proposals by the Evaluation Teams. While no process can ensure that a Bidder's identity remains completely anonymous, the review and redaction process was developed to provide the maximum reasonably practicable level of assurance of anonymity in order to maintain a fair and consistent evaluation process.

1.3. Proposal Submission Process. The IM, the RFP Administrator, and, as necessary, other members of the RFP Administration Team will oversee receipt of all proposals during the Proposal Submission Period. The IM, Authorized members of the RFP Administration Team, and the Evaluation Teams (as needed) will review information submitted by Bidders to determine whether the proposals meet the Threshold Requirements specified in Section 2.3 of the Main Body and whether additional information is needed or appropriate.

1.4. Proposal Evaluation and Selection Process. The IM will monitor the proposal evaluation and selection processes to ensure that the RFP process is objective and impartial and to ensure that all proposals are treated in a consistent fashion, and that no undue preference is provided to any Bidder, including the commercial team responsible for developing and submitting the self-build option (the "Self-Build Commercial Team"). In addition, the IM will review the measures taken to restrict access to proposal information to only those members of the Evaluation Teams who need such information for evaluation purposes.

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

1.5. Oversight of Communications with Bidder. During the period prior to the creation of the Primary Selection List and/or the Secondary Selection List, the IM will obtain and review in advance copies of all written communications from the RFP Administrator to Bidders. To the extent any Bidder is contacted pursuant to Section 2.2 of this Appendix G, the RFP Administrator will consult with the IM before initiating contact to minimize the dissemination of information that explicitly identifies Bidders to Evaluation Team members who do not need such information.

1.6. Contract Negotiation and Due Diligence Phase. After a Bidder has been notified of the inclusion of a proposal submitted on the Primary Selection List or the Secondary Selection List, the IM will monitor the status of developments relating to such proposals, including the status of negotiations of an LOI and/or a Definitive Agreement with such Bidder. If the self-build option is selected for the Primary Selection List, the IM will monitor and, as it deems appropriate, participate in any discussions between members of the Evaluation Team(s) and the Self-Build Commercial Team. If the self-build option is selected to the Secondary Selection List, unless and until the self-build option is selected to the Primary Selection List, the IM shall participate in all discussions between the Evaluation Team(s) and the Self-Build Commercial Team. The IM also may participate in negotiations with Bidders as it deems necessary.

2. Role of RFP Administrator

ESI has designated an individual to serve as the “RFP Administrator.” The RFP Administrator will serve, under the IM’s supervision, in a multi-purpose role that includes, but is not limited to, the following responsibilities:

2.1. Responsibility as Liaison. The RFP Administrator will serve as a liaison between all Bidders or potential Bidders and ESI regarding RFP-related matters.

2.2. Processing of Questions. In the event that ESI needs to contact a Bidder to clarify its proposal(s), to request additional information, or for other purposes contemplated by this RFP, the RFP Administrator will perform those functions and communicate directly with Bidders. The IM will obtain and review in advance copies of all written communications from ESI to Bidders. Bidders will be required to submit any written response to such communications to the RFP Administrator, who will engage the IM in accordance with Section 1.5 above before transmitting the information to the appropriate Evaluation Team.

2.3. Responsibility for RFP Files. The RFP Administrator will ensure that all RFP-related files and information are properly organized, stored, and secured so as to protect adequately the confidentiality of information in accordance with the processes and procedures described herein.

3. Role of RFP Administration Team

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

For this RFP, ESI has established an RFP Administration Team, which consists of (i) the RFP Administrator, (ii) the VP of System Planning for ESI, (iii) the Director of Planning Analysis for ESI, (iv) the Manager of Project and Performance Management for ESI, (v) the Director of Commercial Operations for ESI, (vi) the Manager of Financial Analysis for ESI, and (vii) the Director of Back Office and Support Services. None of the members of the RFP Administration Team are members of any Evaluation Team or the Self-Build Commercial Team. The role of the RFP Administration Team includes, but is not limited to, the following responsibilities:

3.1. Responses to Bidder Questions. The RFP Administration Team will ensure that Bidder questions received by the RFP Administrator concerning this RFP are addressed, with questions and answers posted on the 2016 ENOI Renewables RFP Website, subject to Section 7 of the Main Body.

3.2. Distribution of Proposal Information. The RFP Administration Team will ensure that proposal information is distributed to appropriate members of the RFP Evaluation Teams after review and approval by the IM.

3.3. Provision of Assistance to IM. The RFP Administration Team will work directly with the IM on all questions associated with a specific proposal and will assist the IM in an administrative capacity in support of the IM's efforts to ensure compliance with the processes and procedures contemplated by this RFP.

4. Protocols for Receipt of Bidder Registration Information

Bidders will register for this RFP in accordance with the instructions provided in Section 5.2 of the Main Body. Information submitted to ESI through the Bidder Registration Process will be submitted to the RFP Administrator. Only the IM, the RFP Administrator, and, if necessary, members of the RFP Administration Team will have access to and review the information received from Bidders in the Bidder Registration Process.

5. Procedures for Receipt of Proposal Information and Protection of Confidentiality

Bidders will be required to submit proposals responsive to this RFP in accordance with the instructions provided in Section 5.3 of the Main Body. A key process objective of the RFP process is to ensure that information provided by Bidders in response to this RFP is kept confidential. ESI has designed procedures, described in the Main Body, that its employees, agents, and consultants must follow in the proposal review and the proposal evaluation processes of this RFP. These procedures are designed to preserve, to the extent practicable, the confidentiality of any confidential information contained in Bidders' proposals. Procedural protections include requiring the submission, via electronic mail or courier, of Bidder's Proposal Packages to the RFP Administrator and the redaction of certain information in the Bidder Proposal Packages so that different members of the Economic Evaluation Team and the Viability Assessment Team receive the information needed to carry out

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

their respective evaluations. These procedures are intended to provide reasonable assurance to Bidders that, except as noted below with respect to legal or regulatory requirements, information contained in their proposals will be disclosed (i) only to the appropriate members of the Evaluation Teams, and (ii) only to select agents and consultants utilized by ESI/the Evaluation Teams, and only to the extent necessary for such agents and consultants to perform their respective functions in connection with this RFP.

5.1. Basic Preliminary Protective Measures. Immediately after the end of the Proposal Submission Period, each Proposal Package will be reviewed by the IM, who will work with members of the RFP Administration Team to review each Proposal Package and redact certain information from the Proposal Package before any information from the Proposal Package is given to any member of any Evaluation Team. The IM and the RFP Administration Team will review proposal information before its distribution to the Evaluation Teams and will endeavor to ensure that Bidder's name is redacted in the version of the proposal provided to the EET and the pricing terms are redacted in the version of the proposal distributed to the VAT.

Preliminary Executive Report

After completion of each of the Bidder Registration Process and the Proposal Submission Process, the IM may prepare an Executive Report (each a "**Preliminary Executive Report**"), which will communicate the following: (1) the total number of Bidders submitting proposals in this RFP; (2) the total number of resources for which proposals have been submitted in this RFP; (3) the total number of proposals and the total amount of Capacity offered in this RFP; (4) the total number of technologies for which proposals were submitted in this RFP, the total number of proposals submitted for each technology and resource, and the total amount of Capacity offered for each technology and resource; and (5) any additional information that the recipients of the Executive Report may request and that the IM concurs is appropriate to provide. Preliminary Executive Reports will be communicated only to the Entergy Operating Committee (provided the Entergy System Agreement has not been terminated or cancelled and is still in effect), the operating committee for ENOI, the Chief Executive Officer of Entergy Corporation, the Chief Executive Officer of ENOI, the Senior Vice President and Chief Accounting Officer of Entergy Corporation, the Executive Vice President and Chief Financial Officer of Entergy Corporation, the Executive Vice President and Chief Operating Officer of Entergy Corporation, the Group President of Utility Operations of Entergy Corporation, and, as needed and with the IM's concurrence, other senior executives of Entergy Corporation or any direct or indirect subsidiary thereof ("**Authorized Executive Report Recipients**").

Supplemental Executive Reports

After reviewing proposals for compliance with the Threshold Requirements or in connection with a decision to eliminate a proposal from this RFP, the IM may prepare an Executive Report (each a "**Supplemental Executive Report**") that will communicate the following with respect to the

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

proposals remaining in this RFP or the proposal(s) that have been or may be eliminated: (1) Proposal IDs; (2) capacity amount; (3) resource location; (4) if applicable, the generic basis for elimination of the proposal(s); and (5) any additional information that the recipients of the Supplemental Executive Report may request and that the IM concurs is appropriate to provide. Any Supplemental Executive Report will be communicated only to Authorized Executive Report Recipients.

5.2. Proposal Data. Proposal information will be segregated and distributed to the Evaluation Teams as follows:

- a) operational and economic information will be provided to members of the EET;
- b) technical, environmental, operational, commercial, and other information related to the viability of the proposal will be provided to members of the VAT;
- c) reliability, production cost input, resource location, electric interconnection, and network deliverability information will be provided to the DAT members of the VAT;
- d) information relevant to assessing accounting treatment and effects of the proposal will be provided to members of the AET; and
- e) credit information will be provided to members of the CET.

The proposal information described above will be provided only as needed for the Evaluation Team to perform the specified evaluation functions for which it is responsible. The proposal information provided to the Evaluation Teams may exclude data specifically identifying the Bidder (Bidder company name, Bidder company address, Bidder company contact information, etc.). The IM will work with members of the RFP Administration Team to redact Bidder's proposal information prior to providing it to the appropriate Evaluation Teams. While no process can ensure that Bidder's identity remains completely anonymous, the intention of the foregoing process is to provide the maximum reasonably practicable level of assurance of anonymity in order to maintain a fair and consistent evaluation process. As described above, the IM will review all proposal information prior to distribution to members of the Evaluation Teams. During proposal evaluation, each proposal will be identified by its unique Bidder ID, Proposal ID and/or Resource ID.

5.3. Evaluation Team Reports. The Evaluation Teams will prepare reports informed by results of their analysis of the proposals. The Evaluation Team reports will be reviewed by the RFP Administration Team, the IM, and by senior advisors and other decision-makers at ESI and ENOI. If and after a proposal has been selected for the Primary Selection List or the Secondary Selection List, all information relating to such proposal may be made available to the team or individuals tasked with negotiating the Definitive Agreement, to appropriate executives and other decision-makers at ESI and ENOI, and, with the IM's concurrence, to the Economic Evaluation Team. ESI reserves the

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

right to disclose, with the IM's concurrence, proposal information to additional ESI personnel as necessary to address unforeseen circumstances that may materialize and materially affect the evaluation of one or more of the proposals received in this RFP. Without limiting Section 5.5 below, all Entergy personnel and other agents and consultants having access to confidential information in this RFP will be contractually and/or professionally bound to protect the confidentiality of confidential Bidder information and to use it for no purpose other than activities related to the RFP process and resource evaluation processes. Notwithstanding the foregoing, and without limiting Appendix E, ESI and ENOI expressly disclaim and have no liability to any Bidder for damages of any kind resulting from any disclosure of any Bidder or proposal information.

5.4. Post-RFP Treatment of Proposals and Related Information. Proposals and any correspondence or other material (including electronic material) provided to ESI in connection with this RFP will not be returned to Bidders. At the conclusion of the RFP process (including regulatory review of any transaction entered into as a result of this RFP), all proposals will be either destroyed or archived by ESI in accordance with internal policies governing the storage and retention of records and subject to the procedures described in this section providing for the treatment of such proposals as confidential and subject to any applicable Affiliate Rules.

5.5. Certain Permitted Disclosures of Proposal Information. All information contained in a proposal or otherwise provided by Bidder to ESI in connection with this RFP may be: (i) required to be disclosed by ESI or ENOI pursuant to any applicable law, rule, or regulation or in any proceeding or review, audit, or investigation involving ESI or ENOI and (ii) subject to review by one or more of the regulatory bodies, including their staffs, having jurisdiction over ESI or ENOI in connection with any proceeding, audit, or investigation involving ESI or ENOI, or by any other Governmental Authority with jurisdiction over ESI or ENOI over any matter related to or affected by, directly or indirectly, this RFP, and may be subject to legal discovery or disclosure. By submitting a proposal in this RFP, and subject to any less restrictive terms included in any confidentiality agreement entered into by ESI or ENOI and Bidder (or party on whose behalf Bidder submitted its proposal), Bidder agrees to (a) allow ESI and ENOI to use any of the information contained in any of its proposals or otherwise submitted to ESI in connection with this RFP in filings, pleadings, responses to information requests, testimony, or evidence in any proceeding before or review, audit, or investigation involving any such regulatory body or other Governmental Authority and, without limiting the generality of the foregoing, (b) disclose any of such information when required to do so as described above. In the event such information is to be so disclosed, ESI or ENOI, as applicable, will use good faith efforts to attempt to obtain from such Governmental Authority (or other Person to whom such disclosure is being made), prior to the disclosure of such information, a confidentiality agreement or protective order or other mechanism to protect the confidentiality of such information and limit its dissemination. ESI and ENOI can provide and makes no assurance of the outcome of any such attempt. ESI advises Bidders that intervenors have sought access to confidential Bidder information about potential resource acquisitions in prior regulatory proceedings relating to previous ESI requests for proposals or in which ENOI has been involved, and similar requests for access could be made in proceedings relating to this RFP.

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

6. Protocols for Protection of Market-Sensitive Proposal Information

Because numerous departments and personnel in the ESI organization are involved in the resource planning, asset management/supply procurement, and operations functions, ESI has implemented specific protocols for the protection of proposal information to limit access to specific market-sensitive proposal information provided by Bidders in this RFP, including the protocols listed below:

- (i) No proposal information shall ever be disclosed to any Entergy Competitive Affiliate or to members of the Self-Build Commercial Team, except to the extent that such information is made public.
- (ii) Subject to Section 5.1 and 5.2 above, prior to the selection of proposals to the Primary Selection List and the Secondary Selection List, no proposal information shall be provided to any person within ESI who is not a member of an RFP Evaluation Team or the RFP Administration Team, other than the information that may be provided to counsel for confidential legal analysis involving such information and to senior advisors and decision-makers at ESI and ENOI as provided for in Section 5.3 above.
- (iii) No proposal information shall be provided to any member of an Evaluation Team prior to the Proposal Submission Deadline or before review and approval by the IM.
- (iv) All files created in connection with the RFP process shall be available only to approved personnel. Approved personnel will include only the IM, members of the RFP Administration Team, and those of the Evaluation Teams with designated access to the subject information.
- (v) ESI management is responsible for communicating to the members of the Evaluation Teams the importance of compliance with these protocols, both at the outset of the RFP process and on a continuing basis.
- (vi) ESI personnel involved with the RFP process shall sign a confidentiality acknowledgement that governs access to and uses of information contained in proposals and proposal documents or shall be professionally bound to protect the confidentiality of confidential Bidder information and to use it for no purpose other than activities related to the RFP process and resource evaluation processes.

For the avoidance of doubt, the foregoing protocols will be subject to Section 5.5 above.

7. Affiliate Rules

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.

Appendix G

Process for Protection of Proposal Information

All employees of ESI, any Entergy Operating Company, or any Entergy Competitive Affiliate must adhere to the following Affiliate Rules, as applicable:

- i. FERC Transmission Standards of Conduct, codified at 18 CFR § 358;
- ii. FERC Market-Based Rate Affiliate Restrictions, codified at 18 CFR § 35.39;
- iii. FERC Cross-Subsidization Restrictions on Affiliate Transactions, codified at 18 CFR §§ 35.43-44;
- iv. Arkansas Affiliate Transaction Rules, as applicable;
- v. Texas Affiliate Transaction Rules, as applicable;
- vi. Council for the City of New Orleans Code of Conduct for Entergy New Orleans, Inc.;
- vii. October 1992 Settlement Agreement between Entergy and the Arkansas Public Service Commission;
- viii. Appendix 3 to the Louisiana Public Service Commission's May 3, 1993, Order No. U-19904;
- ix. March 26, 1998, Settlement Agreement between Entergy and the Council for the City of New Orleans;
- x. April 10, 1998, Settlement Agreement between Entergy and the Mississippi Public Service Commission;
- xi. October 19, 2000, Gas Settlement Agreement between the Council for the City of New Orleans and Entergy New Orleans, Inc.; and
- xii. Entergy Corporation Standards of Conduct regarding the relationship between Entergy Corporation's regulated and unregulated subsidiaries.

A link to these Affiliate Rules is posted on the 2016 ENOI Renewables RFP Website.

8. Code of Conduct for Self-Build Commercial Team

The Self-Build Commercial Team will adhere to the provisions of an Acknowledgement of Confidentiality, which will require, among other things, that the members of the Self-Build Commercial Team refrain from participation in the RFP evaluation process.

The statements contained in this Appendix are made subject to the Reservation of Rights set forth in Appendix E of the RFP and subject to the terms and acknowledgements set forth in the Proposal Submission Agreement.
