Notice of Final Results of 2016 ENOI Renewables RFP

Please be advised that Entergy New Orleans, Inc., acting under the oversight of the Independent Monitor, has concluded Phase II of the 2016 ENOI Renewables RFP. Three proposals totaling approximately 45 MW have been placed on the Primary Selection List, including two that are proposed to be located in Orleans Parish. One of the three proposals selected is the self-build alternative, which is generally described in the RFP. ENOI will provide additional information about the selected proposals if and when the parties reach a definitive agreement based on the terms of each proposal. Any such definitive agreement, including the self-build proposal, will be subject to receipt of all internal and regulatory approvals, including cost recovery. ESI, on behalf of ENOI, has notified each Bidder whose proposal has been eliminated from the RFP.
