Notice of Proposal Submission

In order to participate in ESIs 2010 Renewable RFP, each Bidder must complete the Proposal Submission process. Each Bidder must electronically complete Proposal Submission via the RFP Web Portal*, as well as Appendix D – Preliminary Due Diligence Questionnaire. In addition, Bidders are required to submit an electronic Signature ID or executed Proposal Submission Agreement as part of the Proposal Submission Process. The portal will be available beginning at 8:00 a.m. CPT on January 31, 2011 and will be disabled promptly at 5:00 p.m. CPT on February 3, 2011.

 To access the RFP Portal, please click the following link: https://esirfp.entergy.com

The Proposal Submission process will not be deemed complete until bidder completes the Web Portal AND submits an executed version of the Proposal Submission Agreement (if not executed electronically through the Web Portal), Appendix D (and supporting documentation) as well as the Interconnection Package and acceptance letter to the RFP Administrator** by no later than 5:00 p.m. CPT on February 3, 2011.
 The following resources have been provided to assist Bidders in the Proposal Submission process:

- Appendix B - Detailed Instructions for Bidder Registration and Proposal Submission
- Web Portal Overview -- Proposal Submission
- Proposal Submission Guidelines
- Bidders should refer to the Term Sheets provided in Appendix C to prepare for submitting information through the Web Portal.

ESI will have a dedicated RFP Hotline available from 8:00 a.m. CPT on February 31, 2011 to 5:00 p.m. CPT on February 3, 2011 to assist Bidders only with respect to technical questions regarding Bidder Registration. The number for the RFP Hotline is 281-297-3758.

* Bidders must use Internet Explorer 8.0 to access the RFP Web Portal. The use of other browsers could result in an increased frequency of errors on the page or diminished functionality in submitting the proposal.

** The ESI email system is limited to receiving 12mb or less of data in each email and does not accept .zip files.
